

Trackdays Spain goes to Almeria - New circuit, new date, new cars to hire...

TRACKDAYS SPAIN has signed an agreement with the fantastic Tabernas Circuit in Almeria for their next event on Wednesday October 29.

This circuit, in the heart of spaghetti western country, is the perfect place to put cars and their drivers to the test in a safe, exciting environment.

The circuit is just two and a half hours away from Malaga and an easy drive from Almeria and Granada. It provides modern facilities including an on-site restaurant, impressive pit garages and a modern hospital. The driving experience is amazing too!

The four km track features loads of run-off, 14 exhilarating corners, one tight chicane and a seriously fast 900m straight. A track-day is the perfect opportunity for car lovers to see exactly what their cars can do around a race track, meet like-minded people and admire beautiful cars.

It's non-competitive, friendly and great value for money. There has never been any car-to-car contact at 'Trackdays Spain's events and they take safety very seriously.

Their friendly days maximise track time and ensure every client has a wonderful driving experience. For just 279 euros, drivers can bring their own car

to Almeria for a whole day of adrenaline-fuelled driving and bring along a second driver for free.

The 'Trackdays Spain' team is on hand to run through the rules of the day, offer instruction, make sure everyone is driving safely and making the most of their time on track. 'Trackdays Spain' have announced that they have struck a deal with the 'Radical Spain' team to hire out their 100,000 euro race cars at the Almeria circuit.

Instructor and event organiser, Andy Turnbull, explains why he is so excited about this deal. "Radical's cars are awesome machines, capable of 0-60mph in around three seconds and speeds of well over 150mph!

Super sticky slick tyres, Formula One style wings and aerodynamic design help these cars achieve unbelievable cornering speeds and braking unlike anything on a road car.

Normally such valuable and delicate cars aren't available for

hire, so this is an amazing opportunity. There is nothing much outside Formula One that will give you the same sensation of speed and handling that you'll get in a Radical and, unlike a Formula One car, a passenger can come along for the ride!" "Trackdays

Spain' is now able to offer corporate events for companies to entertain clients or reward staff with a very special track-day experience. The corporate package includes car hire, instruction, catering and can be held for a minimum of six people.

If you are interested attending the next trackday on Wednesday, October 29, email info@trackdaysspain.com or call 657 824 813. It's free to watch and just 279 euros to bring your own car.

Radical: The ultimate driving experience.
